Professional Summary

Self-driven and detail-oriented full-stack developer with 1+ years of experience building responsive, user-focused web applications using modern tools like React, Next.js, and MongoDB. Proven track record in shipping production-level features, developing admin dashboards, and integrating third-party APIs. Passionate about clean code, continuous learning, and collaborating on impactful projects.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js (basic), MongoDB, REST APIs

Version Control & Tools: Git, GitHub, Postman, VS Code

Other Tools: Microsoft Excel, PowerPoint, Figma (basic), Google Sheets

General IT: Basic Linux (CLI), Desktop Support & Troubleshooting, Responsive Design, Debugging

Projects

- 🚗 **Customer Profiling App – Honda Manufacturing Nigeria (Full Stack – Next.js, React, MongoDB)**
 - Built and styled the full admin dashboard with responsive layout and secure login
 - Implemented role-based access, CSV export, analytics, and barcode scanner integration
 - Created efficient API routes for dealer/customer registration and admin management
- 🍔 **Food Delivery Web App (Frontend – React.js)**
 - Designed product listing and cart components with smooth UI interactions
 - Applied responsive design principles and managed state using React Hooks
 - Integrated mock APIs to simulate backend logic
- 💰 **Cryptocurrency Price Tracker (Frontend – React.js)**
 - Displays real-time market prices using third-party crypto APIs
 - Built filter and search functionality for better user experience
 - Focused on performance and minimal, clean UI
